TV5 rolls out weekend revamp

New prime-time schedule big on music, gags & competition

Philippines' terrestrial broadcaster TV5 is ramping up its weekend prime time in a bid to be more effective against the country's big two – GMA Network and ABS-CBN.

TV5's eight new weekend shows include the 10th season of quiz show format Who Wants To Be A Millionaire (Sundays, 7pm) , as well as local entertainment magazine programme, Showbiz Police; gag show Tropa Mo Ko UNLI ; singing challenge format Killer Karaoke (Saturdays, 8pm), hosted by Michael V; and comedy talk show What's Up Doods? (Saturdays, 9pm).

TV5's revamped line up also includes musical variety show The Mega and the Songwriter (Sundays, 9pm), right after The Voice Philippines on rival network ABS-CBN at 8.15pm. In TV5's corner is musical legend Sharon Cuneta, while ABS-CBN has Lea Salonga as one of its coaches.

The Mega and the Songwriter also features comedian/songwriter Ogie Alcasid, perhaps best known for his role in GMA's long-running gag show Bubble Gang. Alcasid shifted to TV5 from rival GMA earlier this year after about 20 years.

TV5 pads out its latest ambitions with travel and a new season of travel show Pinoy Explorer (Sundays, 6pm).

Long-running prank show Wow Mali Pa Rin (Sundays, 8pm) returns as part of the revamp, with Joey de Leon back in the mischief master seat.

Billing its new weekend prime time as “Weekend Do It Better”, TV5 is clearly hoping its latest efforts will close the gap with GMA and ABS-CBN, which dominate national and urban ratings.

In August this year, TV5 had a 10% prime-time (6pm-midnight) viewership share against ABS-CBN's 47 % and GMA' s 32 % (source: Kantar Media).

Our Work

We are the new and promising TV content provider of quality innovative programs. We are in the business of selling airtime and programming content.

Philosophy

RPN-9 aims to heighten awareness for the televiewers by providing great quality TV contents which are highly entertaining and informative for the whole family.

About Us

RPN was the original home of the top Hollywood TV series *MacGyver*, *Ally McBeal*, *The X-Files*, *Buffy the Vampire Slayer*, *Felicity*, *NYPD Blue*, *Dharma and Greg* and *The Practice*. These were just few of the shows which became popular to Filipino TV viewers through RPN channel 9.

PROFILE:

On June 19, 1960, the Philippine Legislature passed Republic Act No. 2980 which granted RPN a franchise to construct, establish, maintain and operate radio broadcasting and television stations in the Philippines. Once fully operational, it launched its flagship radio station in Manila, DZBI. By 1967, RPN had grown into a full network, operating DZRR in Manila as well as DZAX in Manila, DZAH and DZBS in Baguio, DZTG in Tuguegarao, DZRL in Laoag, and DXDX in Dadiangas.

Since the granting of its first broadcasting franchise in 1960, RPN has performed as a major player and has been recognized as an innovative pace-setter in the country's broadcast industry. *Newswatch* is known as the longest-running English news program in the Philippines.

1969 was a signal year in the growth of RPN. It was in this year that the network branched out into television with channel 9 in Manila and channel 12 in Baguio. It was also in 1969 that RPN introduced technical milestones in Philippine television. First, it brought in its Toshiba equipment which enabled Channel 9 to telecast in full color.

Accucolor, as its color casting capability was named, was far superior and professional from the test-quality color broadcasts then being run in the country.

Then, RPN brought in the first Outside Broadcast Color Van (OB Van) in the country, making it possible to beam studio-quality broadcasts of news and special events coverage from remote sites.

RPN entered the 1970's as the country's premiere radio and television network with the coverage of the times epochal events by its award-winning news and public affairs, it's

TV Hall-of-Fame local and international services, landmark local and foreign entertainment specials and extensive coverage of sporting events, from Philippines Basketball to Munich and Montreal Olympiads.

A decade later, in 1981 RPN introduced another first, when it brought true “networking” to the country as it pioneered the use of domestic satellite to simulcast its primetime block programs over all its TV stations nationwide, making it possible for provincial audiences to view the same programs at the same time as their Manila counterparts. Today, RPN continues to provide exceptional broadcasting together with its provincial TV and Radio stations nationwide, and its partner Solar Entertainment Corporation. RPN is also currently one of the media companies under the Presidential Communications Operations Office headed by Secretary Herminio B. Coloma, Jr.

About Us

RPN was the original home of the top Hollywood TV series *MacGyver*, *Ally McBeal*, *The X-Files*, *Buffy the Vampire Slayer*, *Felicity*, *NYPD Blue*, *Dharma and Greg* and *The Practice*. These were just few of the shows which became popular to Filipino TV viewers through RPN channel 9.

PROFILE:

On June 19, 1960, the Philippine Legislature passed Republic Act No. 2980 which granted RPN a franchise to construct, establish, maintain and operate radio broadcasting and television stations in the Philippines. Once fully operational, it launched its flagship radio station in Manila, DZBI. By 1967, RPN had grown into a full network, operating DZRR in Manila as well as DZAX in Manila, DZAH and DZBS in Baguio, DZTG in Tuguegarao, DZRL in Laoag, and DXDX in Dadiangas.

Then, RPN brought in the first Outside Broadcast Color Van (OB Van) in the country, making it possible to beam studio-quality broadcasts of news and special events coverage from remote sites.

TV Hall-of-Fame local and international services, landmark local and foreign entertainment specials and extensive coverage of sporting events, from Philippines Basketball to Munich and Montreal Olympiads.

A decade later, in 1981 RPN introduced another first, when it brought true “networking” to the country as it pioneered the use of domestic satellite to simulcast its primetime block programs over all its TV stations nationwide, making it possible for provincial audiences to view the same programs at the same time as their Manila counterparts. Our Work

We are the new and promising TV content provider of quality innovative programs. We are in the business of selling airtime and programming content.

Philosophy

RPN-9 aims to heighten awareness for the viewers by providing great quality TV contents which are highly entertaining and informative for the whole family.

About Us

RPN was the original home of the top Hollywood TV series *MacGyver*, *Ally McBeal*, *The X-Files*, *Buffy the Vampire Slayer*, *Felicity*, *NYPD Blue*, *Dharma and Greg* and *The Practice*. These were just few of the shows which became popular to Filipino TV viewers through RPN channel 9 known as 9TV.

PROFILE:

On June 19, 1960, the Philippine Legislature passed Republic Act No. 2980 which granted RPN a franchise to construct, establish, maintain and operate radio broadcasting and television stations in the Philippines. Once fully operational, it launched its flagship radio station in Manila, DZBI. By 1967, RPN had grown into a full network, operating DZRR in Manila as well as DZAX in Manila, DZAH and DZBS in Baguio, DZTG in Tuguegarao, DZRL in Laoag, and DXDX in Dadiangas.

Since the granting of its first broadcasting franchise in 1960, RPN has performed as a major player and has been recognized as an innovative pace-setter in the country's broadcast industry.

1969 was a signal year in the growth of RPN. It was in this year that the network branched out into television with channel 9 in Manila and channel 12 in Baguio. It was also in 1969 that RPN introduced technical milestones in Philippine television. First, help and funding for the new TV network partly came from ABS-CBN in the form of its old headquarters along Roxas Boulevard and brought in its Toshiba equipment which enabled Channel 9 to telecast in full color.

Accucolor, as its color casting capability was named, was far superior and professional from the test-quality color broadcasts then being run in the country.

Then, RPN brought in the first Outside Broadcast Color Van (OB Van) in the country, making it possible to beam studio-quality broadcasts of news and special events coverage from remote sites.

RPN entered the 1970's as the country's premiere radio and television network with the coverage of the times epochal events by its award-winning news and public affairs, it's TV Hall-of-Fame local and international services, landmark local and foreign entertainment specials and extensive coverage of sporting events, from Philippines Basketball to Munich and Montreal Olympiads.

A decade later, in 1981 RPN introduced another first, when it brought true "networking" to the country as it pioneered the use of domestic satellite to simulcast its primetime block programs over all its TV stations nationwide through its new domestic satellite (DOMSAT) technology, making it possible for provincial audiences to view the same programs at the same time as their Manila counterparts.

Today, RPN known as 9TV continues to provide exceptional broadcasting together with its provincial TV and radio stations nationwide, and its partner Solar Entertainment Corporation.

RPN is also currently one of the media companies under the Presidential Communications Operations Office headed by Secretary Herminio B. Coloma, Jr.

These were just few of the shows which became popular to Filipino TV viewers through RPN channel 9 known as 9TV.

PROFILE:

On June 19, 1960, the Philippine Legislature passed Republic Act No. 2980 which granted RPN a franchise to construct, establish, maintain and operate radio broadcasting and television stations in the Philippines. Once fully operational, it launched its flagship radio station in Manila, DZBI. By 1967, RPN had grown into a full network, operating DZRR in Manila as well as DZAX in Manila, DZAH and DZBS in Baguio, DZTG in Tuguegarao, DZRL in Laoag, and DXDX in Dadiangas.

Since the granting of its first broadcasting franchise in 1960, RPN has performed as a major player and has been recognized as an innovative pace-setter in the country's broadcast industry.

1969 was a signal year in the growth of RPN. It was in this year that the network branched out into television with channel 9 in Manila and channel 12 in Baguio. It was also in 1969 that RPN introduced technical milestones in Philippine television. First, help and funding for the new TV network partly came from ABS-CBN in the form of its old headquarters along Roxas Boulevard and brought in its Toshiba equipment which enabled Channel 9 to telecast in full color.

Accucolor, as its color casting capability was named, was far superior and professional from the test-quality color broadcasts then being run in the country.

Then, RPN brought in the first Outside Broadcast Color Van (OB Van) in the country, making it possible to beam studio-quality broadcasts of news and special events coverage from remote sites.

RPN entered the 1970's as the country's premiere radio and television network with the coverage of the times epochal events by its award-winning news and public affairs, it's TV Hall-of-Fame local and international services, landmark local and foreign entertainment specials and extensive coverage of sporting events, from Philippines Basketball to Munich and Montreal Olympiads.

A decade later, in 1981 RPN introduced another first, when it brought true "networking" to the country as it pioneered the use of domestic satellite to simulcast its primetime block programs over all its TV stations nationwide through its new domestic satellite (DOMSAT) technology, making it possible for provincial audiences to view the same programs at the same time as their Manila counterparts.

Today, RPN known as 9TV continues to provide exceptional broadcasting together with its provincial TV and radio stations nationwide, and its partner Solar Entertainment Corporation.

RPN is also currently one of the media companies under the Presidential Communications Operations Office headed by Secretary Herminio B. Coloma, Jr.

About Us [Edit](#)

Since the granting of its broadcasting franchise in 1960, RPN has performed as a major player and has been recognized as an innovative pace-setter in the country's broadcast industry.

The network has made its mark in Philippine radio and television history with its string of innovations and achievements which include:

The introduction of state-of-the-art superior color transmission dubbed Accucolor in 1969.

The first remote color transmissions with the latest Outside Broadcast (OB) Van in the country.

The first nationwide TV broadcasts via domestic satellite in 1981.

The longest running top-rating TV series in the 70's such as *John en Marsha* and *Superstar*.

The production of critically acclaimed, distinctly award-winning Filipino mini-series like *Malayo ang Umaga*, *Bisperas ng Kasaysayan*, *Cebu*, *Davao* and *Boracay*.

The first record-breaking half-hour daily serial, *Marimar* – RPN's "programming coup" in 1996 that dislodged the top two TV networks' programs in the 6pm timeslot.

RPN was the original home of the top Hollywood TV series *MacGyver*, *Ally McBeal*, *The X-Files*, *Buffy the Vampire Slayer*, *Felicity*, *NYPD Blue*, *Dharma and Greg* and *The Practice*. These were just few of the shows which became popular to Filipino TV viewers through RPN channel 9 known as 9TV.

PROFILE:

On June 19, 1960, the Philippine Legislature passed Republic Act No. 2980 which granted RPN a franchise to construct, establish, maintain and operate radio broadcasting and television stations in the Philippines. Once fully operational, it launched its flagship radio station in Manila, DZBI. By 1967, RPN had grown into a full network, operating DZRR in Manila as well as DZAX in Manila, DZAH and DZBS in Baguio, DZTG in Tuguegarao, DZRL in Laoag, and DXDX in Dadiangas.

Since the granting of its first broadcasting franchise in 1960, RPN has performed as a major player and has been recognized as an innovative pace-setter in the country's broadcast industry.

1969 was a signal year in the growth of RPN. It was in this year that the network branched out into television with channel 9 in Manila and channel 12 in Baguio. It was also in 1969 that RPN introduced technical milestones in Philippine television. First, help and funding for the new TV network partly came from ABS-CBN in the form of its old headquarters along Roxas Boulevard and brought in its Toshiba equipment which enabled Channel 9 to telecast in full color.

Accucolor, as its color casting capability was named, was far superior and professional from the test-quality color broadcasts then being run in the country.

Then, RPN brought in the first Outside Broadcast Color Van (OB Van) in the country, making it possible to beam studio-quality broadcasts of news and special events coverage from remote sites.

RPN entered the 1970's as the country's premiere radio and television network with the coverage of the times epochal events by its award-winning news and public affairs, it's TV Hall-of-Fame local and international services, landmark local and foreign

entertainment specials and extensive coverage of sporting events, from Philippines Basketball to Munich and Montreal Olympiads.

A decade later, in 1981 RPN introduced another first, when it brought true “networking” to the country as it pioneered the use of domestic satellite to simulcast its primetime block programs over all its TV stations nationwide through its new domestic satellite (DOMSAT) technology, making it possible for provincial audiences to view the same programs at the same time as their Manila counterparts.

Today, RPN known as 9TV continues to provide exceptional broadcasting together with its provincial TV and radio stations nationwide, and its partner Solar Entertainment Corporation.

RPN is also currently one of the media companies under the Presidential Communications Operations Office headed by Secretary Herminio B. Coloma, Jr.

RPN's another teleserye My Family's Lover to conquer TV viewing on March 3, 2014

March 1, 2014

We had an average of five programs in the Top 20 Weekly Primetime Program ratings. A sequestered network is always at the bottom of the order when vying to acquire performing stars and programs would consider transferring to *RPN-9*. The big US studios of their top programs to sequestered networks.

If the giant networks ABS-CBN and GMA as well as the number 3 station IBC and TV5, it found a thread-of-the-mill and tried programs that continue to permeate the Filipino audiences here in the Philippines. We created this fan site devoted to our favorite third TV station RPN hopes to bring upscale programming to the mass market, thus appealing to a broad demographic range of TV viewers.

Based on the Kantar Media/TNS survey for February 2014, RPN-9 is seen by more viewers than any other local TV station as 30% total day audience share. Jose Mari Gonzales appointed him as RPN's top honcho. As a TV executive, he reinvented the telenovela's *La Traidora* and *Marimar*, dubbed to Tagalog.

RPN-9 has a semblance of competitive and innovative programming because of the shows of Solar Entertainment which is headed by my good friend and Tokayo (namesake), William Tieng.

For 54 years in the Philippine television space of the TV industry, RPN shows will given more push and determination will pull as the number 3 station in the Philippines! Still, more power to the Kasama network.

The comeback of the top-rated foreign hit series such as *MacGyver*, *The X-Files*, *Buffy*, *the Vampire Slayer*, *Ally McBeal*, *Felicity*, *Dharma and Greg* and *The Practice* are some of the best of award-winning shows will tribute to the Kasama Network's World-Class US Primetime quality programming. A strong number 3 in viewership which virtually stronger among A-B-C classes for upscale viewers during primetime with today's best multi-award-winning world-class its on primetime such as *Glee*, *America's Next Top Model*, *Community*, *Chicago Fire*, *New Girl*, *2 Broke Girls*, *Beauty and the Beast*, *The Big Bang Theory*, *The Vampire Diaries*, *American Idol*, *Survivor*, *The Carrie Diaries*, *The Walking Dead*, *The Neighbors*, *MacGyver*, *NCIS* and *Marvel's Agents of Shield* which has been on primetime schedule with a new seasons and a new episodes in the United states for the hottest primetime shows.

More local programs of RPN cater to the wide cross section of the Philippine society, from A-B-C markets to D-E market for the mass-based market as The Kasama Network burst with a spirit of renewal raring to take on new challenges in the Philippine broadcast industry, the network that will truly serve, inform and entertain.

Last February 28, 2014, the government-owned sequestered media network RPN had its presscon for its another first in teleserye called *My Family's Lover* provides welcome relief from the excessively formulaic dramas on the bigger networks.

It was one of dream come true when I got the chance to be among the guests of this launched because I am so proud to tell you that the writer for this primetime teleserye is none other than,

the multi awarded writer Ms. Carmela Abaygar. I am more than proud to have the chance to have met and tell her that me and my husband collects all the books she had written in the recent press conference of RPN's primetime teleserye offering going on primetime soap operas and competing with other big television networks.

The 5 Girls played by: L-R: Kyline Alcantara, Andrea Brillantes, Jane Oineza and Erin Ocampo

This family-drama series is very timely because it focuses on family values and the growing percentage that there is a rise in number of "parenting families."

My Family's Lover is about father dad Zoren (Albert Martinez) with his wife Carmella (played by Rufa Gutierrez) to be the mother and father to her 5 kids giving birth with their youngest daughter of kids.

The couple has five daughters, played by The Kasama Network's new stable of talents - Kyline Alcantara, Jane Oineza, Andrea Brillantes, Erin Ocampo and Ingrid dela Paz, the child with autism.

The director, veteran megman and producer Joel Lamangan and The Kasama Network shared that it took this long for them to finally air a 3 teleseryes *Jose Rizal*, *Kung Maibabalik Mo Lang* and *My Family's Lover* because they had to keep within its corporate mission and philosophy of offering, 100% family-oriented wholesome programming. RPN is careful in bringing a good values to its Filipino audience.

New prime-time schedule big on music, comedy and competition

Philippines' sequestered TV-radio broadcaster RPN as the Summer Storm 2014 is ramping up its weekend prime time slot in a bid to be more effective and competitive against the country's big two – ABS-CBN and GMA Network, in terms of TV rating as well as the number 3 spot also claimed by IBC and TV5. For its part, RPN's niche strategy is the A-B-C market with their foreign TV shows.

Transmitter power of 100-kilowatts tower output in Panay Ave., Brgy. South Traingle, Quezon City with such building at RPN studio 1 and 2 at the transmitter studio and its 200-foot antenna tower. The network is still focused on maintaining the same target demographic of young, ABC viewership and positioning.

Already intruding this thread to bash that means RPN is indeed starting to be a competitive threat to the other 2 stations. More work in the entertainment industry and more alternative programs for the audience from the soap operas that dominate rival schedules approving the PCGG's privatization of RPN-9. Its popular line-up of series and shows will continue to grow with each new television season.

RPN stirs things up with 'Weekend Primetime' block

With the shadows of the country's two giant networks looming largely over the newly overhauled network, the biggest, brightest, best and all on RPN's super primetime weekend with the biggest family entertainment on Philippine television history with the broadcasting industry. RPN's newest president and chief operating officer (CEO) Robert T. Rivera, promises a number of big shows this year.

RPN's comedy coup is signing up the biggest names in Philippine laughs - Roderick Paulate, Nova Villa and Bayani Agbayani - for its new production also committed to "a number of new formats that we're trying out that will hopefully set new trends in local programming".

The tie up consequently allowed the network to beef up its programming, which consequently boosted its chances to compete against ABS-CBN and GMA-7 offered by the more established networks.

The network's new identity, coupled with aggressive promotion and interesting programs, immediately made an impression among viewers right on its first month of reinvention.

We are the No.3 leader television network in the country, thanks for making us to the top. We'd like to thing out Kasama viewers for making RPN-9, the No.3 leader station. Stay tuned to Philippine television for your favorite all family shows and your favorite RPN stars of The Kasama Network.

Based on the Ratings, majority of RPN's viewers belong to the broad D-E mass-based market followed by A-B-C markets for upscale audience.

Is RPN-9 doing anything at all?

April 8, 2014

RPN-9 is in the third ranks as ABS-CBN and GMA.

It makes even deserves to be mentioned in the domination. Channel 9's market share is so large that it gets scant consideration from advertisers and media buyers, and consequently its revenues can also be a tiny fraction of those of the two giants. Ask the man on the street what he associates with RPN-9 and he will most likely and rather the administration, appointment of the president Noynoy Aquino III.

"In fairness," as showbiz royalties would putting it, RPN-9 is the other private, government-sequestered television and radio network media in the country; and thus, the network with a chance of challenging the duopoly over the long term. The government controlled by the Presidential Commission on Good Government (PCGG). The acquisition of the network by Wilson Tieng of Solar Entertainment became RPN chairman last 2007, put it in a position to compete; and the first time in the new management generated a good deal of excitement and anticipation as well.

Getting the *MBA* and *KBL* games was a brilliant idea that instantly filled RPN-9 schedule with programming practically guaranteed to rate recently and pull in the local advertisers. Picking

up *American Idol* was also particularly astute considering that all the other local networks had ignored the show as Jessica Sanchez is the popular singer made it the talk of the town. Launching *Arangkada Balita* and *Newswatch* together with *Tell the People*, *Saklolo Abogado*, *Kasangga Mo Ang Langit*, *Biyaheng Langit* and *Isumbong Mo Kay Tulfo* spoke of a determination to build a strong, independent and credible news organization. Airing masterpieces such quality soap opera hits as *Luz Clarita*, *Muling Ibalik ang Tamis ng Pag-Ibig* and *My Family's Lover* **gave substance to Tleng's reseration of support for TV fare of those drama serials.**

Of course, there were local trend as well--Pat P-Daza Planas' talk show *Showbiz Ka!*, educational programs *Eskwela ng Bayan* featuring Karen's World, Why?, Solved and Alikabok, and Ruffa Gutierrez's reality show slash beauty contest. Thankfully, they were all the homegrown programs. To be fair, RPN-9 should at least get points for trying out groundbreaking concepts. In fact, some observers say that if these programs had been produced of the network and compared to ABS-CBN and GMA-7, they have been successful.

Currently, RPN-9 is airing another set of quality innovative programs: *Superstar* (Angeline Quinto), a Sunday night, singing musical variety show; *The Million Peso Money Drop* (Rafael Rosell) and *The Price is Right* (Tom Rodriguez) becoming the million-peso prized game show for Filipino viewers; and *Boses Tinig Pinoy*, a reality show for the local national singing contest with German Moreno and Alleen Papin launching the singing champion. Still to come, already get a recent press conference, is a show in which professional Filipino actors compete for a chance to break into the superstars of the network.

The Kasama Network is doing a major reformat. In spite of everything it is doing, its ratings are strong in the large single digits. The real question therefore is: Why RPN-9 compete?

Here are ten things The Kasama Network has got to work on:

1. Signal strength. RPN-9's transmitter has more than the power of the ABS-CBN and GMA-7 transmitters. As a result, people in southern portions of Metro Manila who might want to watch *Superstar* (because they have relatives among the singers) because Channel 13's signal is strong over there. The longer RPN-9 trying to address this problem, the more money it will given on programming that many people get a chance to see.
2. Picture quality. Those viewers who do get the RPN-9 signal often get pictures that are grainy and almost monochromatic. It's more fun to watch the *MBA* and *KBL* isee the players. RPN-9 has to buy some new cameras, more lights, better playback machines, etc, etc. all the way in the line. With everybody else going digital and high definition acceptable.
3. Canned programs. ABS-CBN Sports and Action, Star TV, ETC, 2nd Avenue, Jack TV, Jack City and AXN all carry the top US programs. In order to stand out in this crowd, RPN-9 should also broadcast the current season of a canned series and should at the

very least air ahead of the cable channels. Some foreign canned programs as World-Class US Primetime such as *MacGyver*, *NYPD*

Blue, *NCIS*, *Revolution*, *Community*, *Mission: Impossible*, *The Walking Dead*, *American Idol*, *Survivor*, *The X-Files*, *Glee*, *24* and *Chicago Fire* maybe The Kasama Network should, too.

4. Production. RPN-9 spends over a million pesos to produce each episode of its Mexican telenovelas and asianovelas from Korea and Taiwan. Obviously the people at RPN-9 will be doing to match the level of spending, but this time they have to realize that even the best concepts will be ruined by cheap execution. The recent *Mutya ng Pilipinas* beauty pageant is a case in point. Bringing in *Oscar Awards*, *Academy Awards* and *Miss Universe* from all over the world was a winning idea, the staging of the pageant was about as good as well.
5. Stars. Stated in Filipino televiewers want to see the stars of RPN-9. From the “masa” niche, RPN is now gearing towards the upscale and massive men market. RPN further ups the ante by offering new locally produced programs for its target A-B-C and C-D-E male audience.

Rivera admitted that RPN is positioning itself as a local version of Clar Sports but with more comprehensive and thoughtful approach in fulfilling the entertainment needs of men. For young boys of shows the hit animes and cartoons, which is a third most popular channel in Mega Manila after parent company ABS-CBN and GMA as well as the number 3 spot of IBC and TV5, approaches entertainment for men and boys by having something for the different stages of their lives.

He said while RPN's programming was a “work in progress,” the network has expanded its audience to include men aged 18 to 40 and even beyond. The reformatting is a first step towards becoming the sports and action channel for men in the Philippines and we have seen our ratings improve since then,” Rivera added.

Although RPN is a network for men and for Filipino sports. Our goal is to improve our ratings by offering complete entertainment for men. So we have something for everyone," he said. Trade partners and other guests were on the edge of their seats as they were given a ladd of the exciting shows to come in RPN-9 via an audio-visual presentation that clearly showed The Kasama Network further intensifying its sports and action programming and even introducing its website at rpn9.com.

"Before," he relates, "RpN-9 duplicated the ABS-CBN and GMA's target market, the masses. " Today, he notes how things have changed for the better. The shift to the ABC-DE male market. Advertisers are now plunking in their precious budgets. Now, they realize that The Kasama Network and the cable channels target one and the same upscale audience.

RPN-9 programming empowers viewers

July 6, 2014

RPN's new handle for its homegrown programming, which will see a number of new programs launched and a minor schedule reshuffle, is The Kasama Network. Simply rated, it means empowering the viewer to choose the best TV fare, according to his taste and his inclinations, by providing him with a wide choice of excellent programs, slotted at strategic days and time slots. It means viewers need not follow the herd. Over the last 54 years, RPN-9 has consistently followed the concert of World-Class US Primetime programming with the best of foreign imports, and proudly Philippine-made programs guided by the spirit of originality and innovation.

This best exemplified by outstanding foreign programs as *MacGyver*, *Buffy the Vampire Slayer*, *The X-Files*, *Ally McBeal*, *Felicity*, *NYPD Blue*, *Chicago Hope*, *Dharma and Greg*, *The Practice*, among others, which are not only top-rated but also consistent awardees in the landmark of local programs like *Eat Bulaga!*, *John en Marsha*, *Superstar*, *Champoy*, *Young Love*, *Sweet Love*, *Buddy en Sol*, etc. Award-winning Filipino mini-series such as *Malayo Pa ang Umaga*, *Bisperas ng Kasaysayan*, *Cebu*, *Davao* and *Boracay*, a Mexican telenovelas *Marimar*, *Simplemente Maria*, *Acapulco*, *Maria la del Barrio*, *Luz Clarita*, *La Usurpadora* and *Maria Isabel*.

New seasons of *The Walking Dead* and *Community* start this week, while the dominance of trend-setting program *Dobol Trobol*, headlined by Brod Pete, Dennis Padilla and Eric Quizon. Of

RPN's program thrust, Wilson Tieng, RPN chairman and Solar Entertainment president and CEO says: innovation, diversity, experimentation, multiculturalism are important to us.

It has spelled out success. It has made our programming different, unique. It is said that broadcast is like trench warfare - every inch of difference you can gain is valuable. Channel 9 also from the telenovela craze, it started *La Traidora* in 1994 and *Marimar* in 1996 which becoming the hits.

RPN-9 strives to make every program unique, with a personality of its own. Kasama treats each program as an individual product, as it believes branding in the name of the game. Robert T. Rivera, RPN president and CEO explains: "We will just say let's produce a comedy and a drama. We conceptualize very distinct programs, programs which we can say have the Kasama network trademark of originality.

Discerning viewers have remarked that viewing RPN-9 is like to going into a shop which has only the best choices in merchandise. Every major item has been chosen with great care. And they're all one-of-a-kind. RPN is in the thick of the network war to the throne, it has the "copycatting" in against it.

RPN has opted for strategic counter programming. When viewers decide to exercise their viewing time, there will be a true shift in the primetime balance of power. In July, RPN-9 unleashes new and challenging programs with populist genres. Among the US imports through World-Class US primetime, *Smallville* promises to be the hit of the season for the brand new episodes in a superhero. *The Big Bang Theory* delight the tradition of the much-loved comedy, *24: Live Another Day* brings to the screen a new action-packed team, while the reality show *American Idol* shows us the host Ryan Seacrest.

Of the local front, *Superstar* continues to be the best musical variety show on Philippine TV; *Kanta Tayo* which is the response to viewers' clamor for the sing-along karaoke game show; and on July 12, the two of primetime game shows *The Million Peso Money Drop* and *Price is Right* for the million-peso prizes, the top-rated reality show *Boses Tinig Pinoy* with a new season for the national singing contest, and on Saturday sees the debut of what to be the hottest comedy show on Philippine TV: *Dobol Trobol*, the program to laughing for.

Marketing Case Study - Marimar [Edit](#)

Background

Marimar is a Mexican TV telenovela originally broadcasted in 1994 in Mexico. The rights were later bought by RPN 9, dubbed it in Filipino and re-broadcasted on a primetime slot on Philippine television. Pitted against industry giants ABS-CBN and GMA-7, *Marimar* caught the fancy of Filipinos and became a nationwide sensation. Intriguing

is the fact that at that time, ABS-CBN and GMA's shows lord over television and their shows occupy a very huge chunk of the ratings pie. In came *Marimar* and shoved its rival's ratings. What made this foreign telenovela so special that it was able to do such? On the marketing perspective, what strategies were employed that led to the tipping of the ratings scale?

The company and its available resources Radio Philippines Network, Inc (RPN), initially known as Kanlaon Broadcasting system, is a broadcast television network in the Philippines owned by the Government Communications Group.

Initially it operated radio stations and in 1969 it launched its television arm. In the 70s and 80s, RPN was a big player in the local broadcast industry with several shows and special coverage in its fold. It aired special coverage like the *Olympics*, *Thrilla in Manila* and the *Miss Universe Pageant*. It also launched trendsetting programs such as *John en Marsha*, *Superstar*, *Eat Bulaga*, and several big-name animes. It also bought rights for re-broadcasting of several hit TV shows from the United States.

After the 1986 EDSA revolution, RPN was sequestered by the government and its assets were turned over to the Government Communications Group. In its fall from grace, the network lost much of its viewership to GMA and ABS-CBN. Some of its high-rating primetime shows were either cancelled or moved to a rival network. It eventually fell into a ratings slump due to the resurgence of ABS-CBN and GMA. Being a government controlled company; it was running on a tight budget.

The company stature could compete head-on with its rival's heavily funded shows. As an obvious result, the viewer-market favored other network's programming over theirs. The company is in dire need of something to turn the tide in their favor. Other Variables Providing as background to the events of the 1990s, economically, the Philippines was not faring well. Though it had made progress with its rapid economic growth under Pres. Fidel Ramos (1992-1998), the poor still constituted a majority of its citizens. This time was also characterized with power shortages leading to widespread blackouts.

Being all too similar. It was also more cost-efficient and less risky to show *Marimar* than gambling on a similar news program to match the already popular and well staffed rival shows. RPN was already importing foreign shows (mostly from the US and Japan).

Marimar was a top-rater in any Latin American country where it was shown. With Spanish influence deep in Filipinos' blood. Two years prior. *Marimar* thus became the pawn against the bishops and rooks of their rival. The craze was called *Marimar*. the executives at RPN hoped that the same phenomenon (or even half of that) would infect the Philippine scene. Disapproving they may be of the newscasts. ABS-CBN had *TV Patrol* and GMA had *Saksi*. Both GMA and ABS-CBN fielded their respective top-rating early-evening news program in the primetime slot.

At that time. Product Comparison (Strengths and Weaknesses of Programs in the 6pm slot) (pardon me for the use of non-business language. With nothing to lose and nothing in their current roster of programs resilient enough to contend with the heavyweights. Some light stuff would be earmarked here and there but the emphasis almost always bordered on the negative. Analysis Tapping an Untapped Market Owing to its near-nil resource and recognizing its inability to contend toe-to-toe with GMA and ABS-CBN's well-planned. both programs also left the same void in the market. Both news programs were headlined by the 2 network's popular newscasters. the newscast's ratings were sky-scrappers as compared to RPN's.primetime slot In 1996.

RPN looked at the programming choices it will offer for the 6pm primetime. a craze was spreading across Latin America. It was not new to them to import top-rating shows in other countries whose formula are akin to the shows patronized in the Philippines. well-executed and highly-financed newscasts.) shows supplanted by RPN on this timeslot took a back seat on its rival network's newscasts. The Primetime Slot: An introspective look the programs of ABS-CBN and GMA on its 6pm timeslot were characterized with similar attributes.. RPN decided to look elsewhere. Both programs catered to the same need. The audience were in a neck-deep dire state and the newscasts were highlighting the scenes they would otherwise leave unnoticed. News at that time was often about the dire plight of the country.

The venture was more cost-efficient: no production costs and talent fees, it made use state of the art technology in broadcasting and news reporting) round-the-clock yried and tested formula that generated high-rating To infinity and beyond Rregular marketing (Ads, billboards kept them glued to their screens. .

New Vision 9's March Primetime (1992)

Once upon a time, the most innovative programming came from them. They have the best chances to go 24/7 among free channels at the time. All wasted by bureaucratic mismanagement.

Alternative fare for 9TV

August 22, 2014

The new Kasamas of an all-new RPN 9TV: (clockwise from top-left) Richard Gutierrez of The Price is Right, Angeline Quinto of Superstar, JM de Guzman of Temptation Island, German Moreno of Boses Tinig Pinoy, Hazel Faith dela Cruz of Dear Hazel, Ingrid dela Paz and Aaron Villaflor of I'm a Princesa, Empress Schuck and John Wayne Sace of Fall

in Love for You, Kristofer Martin and Joshua Diosino of Carl & Ed, Roderick Paulate and Nova Villa of John en Nova and Bayani Agbayani of Kanta Tayo.

MANILA, Philippines, Major changes are underway for the Kasama Network, newly refurbished channel of RPN-9 makes a splash in the local Philippine TV scene this month called 9TV's initial broadcast on Saturday night (August 23) had none of the telenovelas and noontime variety shows commonly on ABS-CBN and GMA.

Starting this Monday, August 23, it will cater to a broader market with new shows that will target the Filipino masa, or viewers belonging to Class C and D. The shows will also be presented in Tagalog, veering from the channel's previous standard of shows presented in English.

It used to be that viewers would switch to Channel 9 gets a make-over for the foreign canned shows in the United States, telenovelas, Asian dramas and sports from MBA and KBL. From the Radio Philippines Network, Inc. (RPN), the station is now being reintroduced as the newest Philippine TV sensation 9TV with the chairman Amb. Antonio Cabangon-Chua as Chairman and Benjamin Santos as President and CEO.

9TV retaining the news and current affairs, sports and entertainment programming while expanding its primetime and weekend programming to cater more audiences which was started by the launching of Kids Weekend. Also, ALC Group of Companies appoints Benjamin Ramos as new president of the Radio Philippines Network, replacing Usec. Robert T. Rivera. I hope RPN comes up with better programming.

"It's the risk we decided to take. We wanted to give people an alternative to the current fare," said RPN's newest chairman Amb. Antonio L. Cabangon-Chua and the president and CEO Benjamin Ramos during the network's launch last Thursday in Greenhills, San Juan. According to Cabangon-Chua, these innovations were done in preparation of the network's 55th anniversary of revolutionized TV and radio broadcasting next year.

"So, RPN-9 has been in TV for 55 years. As you have mentioned, we have been innovating. Since the start of the year, we have introduced a series of TV programming initiatives. We're proud to state that these initiatives have actually been successful for us," he said. Among these innovations are the inclusion of local movies in RPN-9's programming. Ventosa said this resulted into a 150% growth in channel audience for the channel, which is now ranked third in the market according to data from Kantar Media.

"It's the risk we decided to take. We wanted to give people an alternative to the current fare," said RPN's newest chairman Amb. Antonio L. Cabangon-Chua and the president and CEO Benjamin Ramos during the network's launch last Thursday in Greenhills, San Juan.

"If we would come up with shows with just the same format, kaming pinagkaiba." Amb. Antonio added that the network will first concentrate on strengthening its prime time block, which is from 4 p.m. to 11 p.m. 9TV strives for an alternative programming. 9TV is the newest major player in Philippine television industry.

9TV's new logo comes with more generic blue and red branding to reach a wider audience and strengthen its presence on free TV RPN-9. Remember these of public service program *Action 9*, which was anchored by Ramon Tulfo, Atty. Dong Puno, Angelique Lazo and Rey Langit.

"We've seen that the audience that has been very skeptic," Santos explained. "The market has changed, you know the market is very dynamic. We've seen that a lot more of the audience are preferring the local programming. And in doing so, we noticed also that we've been able to expand our audience."

This is why RPN-9 is set to premiere more and more local programming.

The executive of the Kasama Network added, "Whereas in the past, *siguro*, our programming was skewed to the broad C market. When we introduced the Tagalog movies, we've expanded to the D market. And they are also part of our audience today, so we want to cater more to the expanded audience."

This was announced last Friday by Amb. Antonio Cabangon-Chua, chairman of RPN, during the launch of 9TV's new programming lineup in a glitzy affair at the Hotel Rembrandt ballroom.

I wish that RPN-9 would bring back its own programming and to bring the network's news programs such as *Arangkada Balita* (weeknights 6:30 p.m.) anchored by Bing Formento and Angelique Lazo, and also the long-running English late-night newscast *NewsWatch* (weeknights at 11 p.m.) anchored by Eric Eloriaga and Cristina Peczon. It will also air with the US TV shows, telenovelas, Asian dramas, animes, cartoons, etc.

Chua stressed that the unique strength of RPN-9 known as 9TV is that it brings together the superstars of local sports, the foreign canned programs in the US, telenovelas, Asian dramas, cartoons and anime with the leading lights of Philippine entertainment industry under one roof, in a never-before-tried mix.

The need to reinvent Channel 9, Atty. Antonio said, had been pursued by its management led by a chairman Amb. Antonio L. Cabangon Chua. Negotiations led to a long-term block-time agreement between RPN, Solar Entertainment and ALC Group of Companies, the local subsidiary of Solar Television Network. The Kasama Network RPN-9 became its new brand name as 9TV adds the entertainment shows on primetime which also develop its own roster of homegrown talents and stars.

Its modest aim, according to Antonio, is to become No.2 in the so-called TV network wars. "ABS-CBN and GMA-7 are both claiming to be No.1 and IBC-13 and TV5 still charting to the No.3 slot in the ratings game. We'd gladly give that to them. But we want to be the solid third force in the industry," explained Antonio.

Together with the directors and producers who have joined the new network, the list of actors who will be seen nightly has been growing by the week. Antonio happily reports, "The Kasama Network 9TV is proud to have secured the services of several established talents in the industry. We hope to be a venue where actors can showcase their talent to the fullest regardless of where they originally 'came' from. We feel that this cross-pollination of talent is very good for the entertainment industry as a whole." Of course, RPN-9 will also develop their own fresh new talents which goes without saying.

More exciting

A week after week is the newly-refurbished RPN Channel 9 surfaced as 9TV, we find ourselves hoping and sharing a conviction that there is dedication in our talented artists, producers and network owners to turn around the industry that many have practically given up on.

August 4, 2014

To serve you better and cater our fellow Filipinos abroad, the new alterantive TV station in the country. This means the high-quality news and public affairs programs, cultural and educational programs, children's programming and cartoons, non-stop entertainment from musical, dramas, reality, game shows, compelling Asianovelas and blockbuster movies, and action-packed sports programs (where sports in special and always spectacular) to keep with basketball, motoring and boxing. And this milestone makes us the one and only Philippine government station that can deliver!

The Network

PTV, the country's national television network, in cooperation with Silverstar Communications, Inc., unveils a new look with a new line of programs set to define a wider coverage toward the new millennium.

The country's government television network began operations in 1974 as GTV-4. It was renamed Maharlika Broadcasting System in 1980 and following the People Power Revolution in 1986, became People's Television 4. On March 26, 1992, President Corazon C. Aquino signed Republic Act 7306, turning PTV Network into a government corporation known formally as People's Television Network, Inc.

In June 1992, the network was given a one-time equity funding for capital outlay. Shortly after he took over the mantle of government in June 1992, president Fidel V. Ramos appointed PTV Network's first board of directors. The Network was given a one-time equity funding for capital outlay.

Since 1992, PTV has been operating on revenues it generates on its own. RA 7306 stipulates that the government shall not allocate funds for the operations of the network.

PTV has been on full satellite transmission nationwide since 1992. Its flag station, PTV-4, which is based in Quezon City, boasts of a 40-kilowatt transmitter sitting on a 500-foot tower. With its 27 provincial stations and its affiliation with over 800 cable systems across the country, the

network has extended its reach to approximately 85% of the television viewing public nationwide. Since then, PTV has set a new trend in the Philippine television industry by being the first to acquire digital technology. It is also the first network to use all solid-state transmitters in its provincial stations with power ranging from 1kw to 10kw. It is also the first station to convert its satellite transmission to digital compression as well as simultaneous transmission of main programs to the network's provincial stations and independent cable TV systems.

PTV is also known for the excellence it has shown in the late eighties by garnering several awards for three succeeding years from the Catholic Mass Media Awards and producing several award-winning programs.

For the past years, PTV exerted efforts in finding ways to improve the network. In fact, they have converted their satellite transmission recently to digital video compression making it possible for interactive Satellite News Gathering transmission during news and special events coverage.

As provided for in its charter, PTV is mandated to give its viewers a balanced mix of news, public affairs, educational, cultural and sports programs.

Logo

As the symbol of change, even the logo of the station we will be featured is unique also because the new image it wants to present to the public.

The shape of the P logo on innovative means such station is simply the service of the public (people). The tail also its shape thought balloon represents and directing viewers to open the mind, act and find solutions based on the information available to watch here. The gap in the central part of the logo that looks like a TV set shows also that the PTV-4 is the substance and tracked viewers.

The things mentioned regarding changing logo PTV- 4 with a colored "aqua blue" that always seem fresh (fresh) such as news and information will be made public, cultural, children and educational, entertainment and sports programs in the government TV station. In conjunction with these changes creating new slogan *Telebisyon ng Bayan* which in turn attached to the name of PTV-4 indicates that it will continue the delivery of information about government programs that need more people.

The new sound, look and feel that will be featured on PTV 4 is fundamentally just.

Vision

Specifically, the People's Television Network is committed to pursue the following objectives:

To make itself the alternative television network, giving priority to high-quality news and public affairs, cultural and educational, children's programs, entertainment and sports programs.

Disseminate objective and up-to-date information on government projects and activities. Help translate the government's vision of national unity, social upliftment, economic progress, and enduring peace into reality.

One of the major leaps PTV has taken was the production of new and additional programs to give new meaning to alternative programming and make primetime viewing more inviting, PTV guarantees to bring distinctive and captivating shows that will bring ample and balanced entertainment to its audience.

With 27 provincial stations strategically located around the archipelago and carried by the largest number of cable operators in the country today, the People's Television Network offers you superior service, satellite power and unbeatable nationwide reach and coverage.

"40 years of exclusively servicing government programs, public affairs, news of national relevance, public service, educational, cultural and children's programs, wholesome, balanced and powerhouse entertainment and sports, shall showcase PTV-4's transformation into a more commercially-competitive television network, towards targeting to increase viewership by a big margin in the middle of 2014 as its biggest programming.

The Kapambansa Network will enlarge its coverage footprint as PTV World and PTV America include Indian Ocean country states, Hawaii, and the West Coast of U.S.A.

The network embarked on a Facilities Upgrading Project with assistance from the French government. Under the Second and Third French Protocols of 1990 between the Philippine and French governments. PTV-4 was recipient of FF74 2 million (P20 million) in the form of transmitter facilities, studio, video and audio equipment.

PTV-4 now also broadcasts from its new headquarters at the Philippine Information Agency compound in Visayas Avenue, Diliman, Quezon City.

PTV-4 launched its satellite-simulcast broadcast programming last February 14, 1994 for nationwide outreach. With the acquisition of the uplink equipment to match the Transponder 54 of the Palapa B2P Satellite lease from Telkom, Indonesia, PTV-4 operates on a full-time satellite broadcast.

Programming is 25% news and public affairs, 22% educational, cultural and children's programming, 19% sports, 35% entertainment and 10% religious. "This will kick off out sports program for the first time." As we promised, we're promoting PTV-4 as the sports network aside from our focus on news and public affairs, educational and cultural, children shows and entertainment.

The Network

PTV, the country's national television network, in cooperation with Silverstar Communications, Inc., unveils a new look with a new line of programs set to define a wider coverage toward the new millennium.

The country's government television network began operations in 1974 as GTV-4. It was renamed Maharlika Broadcasting System in 1980 and following the People Power Revolution in 1986, became People's Television 4. On March 26, 1992, President Corazon C. Aquino signed Republic Act 7306, turning PTV Network into a government corporation known formally as People's Television Network, Inc.

In June 1992, the network was given a one-time equity funding for capital outlay. Shortly after he took over the mantle of government in June 1992, president Fidel V. Ramos appointed PTV Network's first board of directors. The Network was given a one-time equity funding for capital outlay.

Since 1992, PTV has been operating on revenues it generates on its own. RA 7306 stipulates that the government shall not allocate funds for the operations of the network.

PTV has been on full satellite transmission nationwide since 1992. Its flagship station, PTV-4, which is based in Quezon City, boasts of a 40-kilowatt brand-new transmitter sitting on a 500-foot (150 m) tower. With its 27 provincial stations and its affiliation with over 800 cable systems across the country, the network has extended its reach to approximately 85% of the television viewing public nationwide. Since then, PTV has set a new trend in the Philippine television industry by being the first to acquire digital technology. It is also the first network to use all solid-state transmitters in its provincial stations with power ranging from 1kw to 10kw. It is also the first station to convert its satellite transmission to digital compression as well as simultaneous transmission of main programs to the network's provincial stations and independent cable TV systems.

PTV is also known for the excellence it has shown in the late eighties by garnering several awards for three succeeding years from the Catholic Mass Media Awards and producing several award-winning programs.

For the past years, PTV exerted efforts in finding ways to improve the network. In fact, they have converted their satellite transmission recently to digital video compression making it possible for interactive Satellite News Gathering transmission during news and special events coverage.

As provided for in its charter, PTV is mandated to give its viewers a balanced mix of news, public affairs, educational, cultural and sports programs.

Logo

As the symbol of change, even the logo of the station we will be featured is unique also because the new image it wants to present to the public.

The shape of the P logo on innovative means such station is simply the service of the public (people). The tail also its shape thought balloon represents and directing viewers to open the mind, act and find solutions based on the information available to watch here. The gap in the central part of the logo that looks like a TV set shows also that the PTV-4 is the substance and tracked viewers.

The things mentioned regarding changing logo PTV- 4 with a colored "aqua blue" that always seem fresh (fresh) such as news and information will be made public, cultural, children and educational, entertainment and sports programs in the government TV station. In conjunction with these changes creating new slogan *Telebisyon ng Bayan* which in turn attached to the name of PTV-4 indicates that it will continue the delivery of information about government programs that need more people. The new sound, look and feel that will be featured on PTV 4 is fundamentally just roaring to reach greater heights.

Vision

A fan site devoted to our favorite alternative yet intelligent station, PTV-4! Look out as we gather relevant, fun and reliable source of information about our favorite TV station today. Specifically, the People's Television Network is committed to pursue the following objectives:

Disseminate objective and up-to-date information on government projects and activities.

Help translate the government's vision of national unity, social upliftment, economic progress, and enduring peace into reality.

With 27 provincial stations strategically located around the archipelago and carried by the largest number of cable operators in the country today, the People's Television Network offers you superior service, satellite power and unbeatable nationwide reach and coverage.

And this milestone makes us the one and only Philippine government TV station that can deliver your Kapambansa!

For 40 years in the mainstream Philippine television space, PTV-4 is your source of the most promising Philippine television space, it shows a lot of promise and potential, more push and determination will pull it off as the number one station in the Philippines! Still, more power to Telebisyon ng Bayan.

The Network

[Edit](#)

PTV, the country's national television network, in cooperation with Silverstar Communications, Inc., unveils a new look with a new line of programs set to define a wider coverage toward the new millennium.

The country's government television network began operations in 1974 as GTV-4. It was renamed Maharlika Broadcasting System in 1980 and following the People Power Revolution in 1986, became People's Television 4. On March 26, 1992, President Corazon C. Aquino signed Republic Act 7306, turning PTV Network into a government corporation known formally as People's Television Network, Inc.

In June 1992, the network was given a one-time equity funding for capital outlay. Shortly after he took over the mantle of government in June 1992, president Fidel V. Ramos appointed PTV Network's first board of directors. The Network was given a one-time equity funding for capital outlay.

Since 1992, PTV has been operating on revenues it generates on its own. RA 7306 stipulates that the government shall not allocate funds for the operations of the network.

PTV has been on full satellite transmission nationwide since 1992. Its flagship station, PTV-4, which is based in Quezon City, boasts of a 40-kilowatt brand-new transmitter sitting on a 500-foot (150 m) tower. With its 27 provincial stations and its affiliation with over 800 cable systems across the country, the network has extended its reach to approximately 85% of the television viewing public nationwide. Since then, PTV has set a new trend in the Philippine television industry by being the first to acquire digital technology. It is also the first network to use all solid-state transmitters in its provincial stations with power ranging from 1kw to 10kw. It is also the first station to convert its satellite transmission to digital compression as well as simultaneous transmission of main programs to the network's provincial stations and independent cable TV systems.

PTV is also known for the excellence it has shown in the late eighties by garnering several awards for three succeeding years from the Catholic Mass Media Awards and producing several award-winning programs.

For the past years, PTV exerted efforts in finding ways to improve the network. In fact, they have converted their satellite transmission recently to digital video compression making it possible for interactive Satellite News Gathering transmission during news and special events coverage.

As provided for in its charter, PTV is mandated to give its viewers a balanced mix of news, public affairs, educational, cultural and sports programs.

Logo [Edit](#)

As the symbol of change, even the logo of the station we will be featured is unique also because the new image it wants to present to the public.

The shape of the P logo on innovative means such station is simply the service of the public (people). The tail also its shape thought balloon represents and directing viewers to open the mind, act and find solutions based on the information available to watch here. The gap in the central part of the logo that looks like a TV set shows also that the PTV-4 is the substance and tracked viewers.

The things mentioned regarding changing logo PTV- 4 with a colored "aqua blue" that always seem fresh (fresh) such as news and information will be made public, cultural, children and educational, entertainment and sports programs in the government TV station. In conjunction with these changes creating new slogan *Telebisyon ng Bayan* which in turn attached to the name of PTV-4 indicates that it will continue the delivery of information about government programs that need more people. The new sound, look and feel that will be featured on PTV 4 is fundamentally just roaring to reach greater heights.

Vision [Edit](#)

A fan site devoted to our favorite alternative yet intelligent station, PTV-4! Look out as we gather relevant, fun and reliable source of information about our favorite TV station today. Specifically, the People's Television Network is committed to pursue the following objectives:

To make itself the alternative television network, giving priority to high-quality news and public affairs, cultural and educational, children's programs, entertainment and sports programs.

Disseminate objective and up-to-date information on government projects and activities.

Help translate the government's vision of national unity, social upliftment, economic progress, and enduring peace into reality.

One of the major leaps PTV has taken was the production of new and additional programs to give new meaning to alternative programming and make primetime viewing more inviting, PTV guarantees to bring distinctive and captivating shows that will bring ample and balanced entertainment to its audience.

With 27 provincial stations strategically located around the archipelago and carried by the largest number of cable operators in the country today, the People's Television Network offers you superior service, satellite power and unbeatable nationwide reach and coverage.

“40 years of exclusively servicing government programs, public affairs, news of national relevance, public service, educational, cultural and children's programs, wholesome, balanced and powerhouse entertainment and sports, shall showcase PTV-4's transformation into a more commercially-competitive television network, towards targeting to increase viewership by a big margin in the middle of 2014 as its biggest programming.

The Kapambansa Network will enlarge its coverage footprint as PTV World and PTV America include Indian Ocean country states, Hawaii, and the West Coast of U.S.A.

Innovative Public Information

1. Maintained a balance of views -- a complete turn around from the heavily handed censorship of its predecessor GTV-4 and MBS-4 during the Marcos regime, NBN-4 during Arroyo administration, and now is PTV-4 from Aquino, Ramos, Erap and PNoy administration.
2. Carved out innovations in news programming as the government TV station with 4 major daily newscasts (*Balitaan*, *News@1*, *News@6* and *NewsLife*), hourly new breaks (*PTV Newsbreak*) and 3 weekend updates (*News@1*, *News@6 Weekend*, *The Weekend News* and *NewsLife Weekend*).
3. Led in public affairs programming with pioneers such as *PTV Special Forum*, *The Veronica Chronicles*, *Good Morning Boss!*, *BizNews* and *Personage* which became forerunners of public affairs programs in Philippine television. Meanwhile, it provided models for the public service programs such as *Damayan*, *GSIS Members Hour*, *The Doctor Is In* and *Pinoy US Cop Ride Along*.
4. The pioneering educational programming from CONSTEL (Counting Studies via Television) such as *Physics in Everyday Life*, *Science Made Easy*, *Chemistry in Action*, *Pamana ng Pahina*, *Bayani Pilipino*, *Fun with Math* and *English High School*, educational and cultural shows *Kahanga-hangang Pilipinas*, *Tipong Pinoy*, *Mag-Agri Tayo!*, *I Got You*, *Tele-Aralan ng Kakayahan* and *Ating Alamin*.
5. Provided leadership in sports programming.
6. Broke the dominance of commercial television networks, it ranked number 4 in TV ratings among five networks in Metro Manila. It was proven, therefore, that a government TV station can have a sizeable share of the viewing audience with a programming that is balanced and credible.
7. Became the Hall of Fame awardee of the Catholic Mass Media Awards (CMMA) by winning the Best Station with Most Balanced Programming for three consecutive years, among other awards.
8. Provided longer daily broadcast hours to news and public affairs information including coverage during natural disasters.

From an MBS-4 with poor ratings, a small outreach and looted-of-equipment network in 1986, PTV-4 now ranks among the top networks in terms of nationwide reach and coverage. The network embarked on a Facilities Upgrading Project with assistance from the French government. Under the Second and Third French Protocols of 1990 between the Philippine and French governments. PTV-4 was recipient of FF74 2 million (P20 million) in the form of transmitter facilities, studio, video and audio equipment.

PTV-4 now also broadcasts from its new headquarters at the Philippine Information Agency compound in Visayas Avenue, Diliman, Quezon City.

PTV-4 launched its satellite-simulcast broadcast programming last February 14, 1994 for nationwide outreach. With the acquisition of the uplink equipment to match the Transponder 54 of the Palapa B2P Satellite lease from Telkom, Indonesia, PTV-4 operates on a full-time satellite broadcast.

Programming is 25% news and public affairs, 22% educational, cultural and children's programming, 19% sports, 35% entertainment and 10% religious. "This will kick off out sports program for the first time." As we promised, we're promoting PTV-4 as the sports network aside from our focus on news and public affairs, educational and cultural, children shows and entertainment.

Thounghts ON NBC TELEVISION NETWORK

NBC boasts of itself as the station that earned the following awards: **Hall of Fame Award for Best Station, Most Balanced Programming** in 1987 and the **Catholic Mass Media Awards**, and the other pioneering and award-winning educational, cultural and public service programs such as ***Tele-aralan ng Kakayahan, Ating Alamin, Batibot, For Art's Sake, Coast to Coast*** and ***Paco Park Presents***. The educational program called **Continuing Studies via Television (CONSTEL)** has been used in teacher training by the **Regional and Divisional Leader Schools of the Department of Education, Culture and Sports (DECS)** and in **Teacher Education Institutions of the Commission on Higher Education**. This program aims at upgrading teaching skills of elementary and secondary teachers of Science and English was institutionalized by **DECS**.

NBC has also been covering major international sports competitions, particularly the **Olympic Games** and the **SEA Games**. The programming of **NBC** is 11% news, 13% public affairs, 16% educational, 19% sports, 36% entertainment, and 5% religious.

Earlier this month last 2012, **NBC Television Network** turning into a new slogan **National Brocasting Company**' state television, the national television network in cooperation with **Silverstar Communications, Inc.**, launched a new image in an attempt to reach out to more Filipinos, unveils a new look with a new line of programs set to define a coverage. Aside from launching its new logo, they launched new programs and renovated their newscasts; the decade-old ***Teledyaryo*** brand was scrapped, maybe for good itself to the country's premiere news channel like **Channel 4** is re-establishing itself as the premiere sports channel.

The government-owned station, often dismissed as a government mouthpiece and propaganda machine by government critics, has shifted to commercial broadcasting, opening doors to private advertisers and introducing more interactive programing. To make itself the alternative television network, giving priority to high-quality news and public affairs, cultural and

educational, and sports programs with **Silverstar** has been getting more aggressive with acquiring a bunch of projects since they seem to have such a strong connection with **Channel 4**.

Disseminate objective and up-to-date information on government projects and activities. Help translate the government's vision of national unity, social upliftment, economic progress, and enduring peace into reality to give new meaning to alternative programming and make primetime viewing more inviting, **PTV** guarantees to bring distinctive and captivating shows that will bring ample and balanced entertainment to its audience with **Channel 4** has nationwide reach, making the **PTV Network** a government corporation known as **People's Television Network, Inc. (PTNI)** which was mandated to give its viewers a balanced mix of news and public affairs, educational, cultural and sports programs.

For your frank information, the broadcast graphics on **PTV** is made up of **Adobe Creative Suite**, which most professional videographers can easily bought **PTV** now using the computer animated grapgics. It's not any better than Channels 2 and 7 which they procured two years ago (an election year) some quality broadcast graphics package (Orad and VizRT), costing hundreds of million pesos to invest and to operate. On their website, the bid for broadcast graphics and virtual studios cost PHP 2.9 million.

Based on my observation, all of their newscasts have 3 main anchors, instead of 2 regular anchors and a sports anchor, as most newscasts in the rest of the world, they broadcast ***Paco Park Presents*** and ***Concert at the Park***, which we gain the spirit of arts and culture. The weekend editions via spin-offs like ***News@1: The Week that Was***, ***News@1 Junior*** and weekend edition for ***The Weekend News*** with Jorge Bandola and Rocky Ignacio to give its viewers a balanced mix of news and public affairs, educational and cultural, and sports programs, **NBC 3** the network should "give priority to education, science and technology, arts, culture, children and sports in order to foster national pride and identity." Instead, PTV-4 fosters a culture of gambling and vices by airing programs on lotto, jai alai, online bingo, among others.

Aside from the new newscasts and a new breakfast program (***Good Morning Boss!***), there's a new **PTV** programming; the same public affairs programs, documentaries and educational program **CONSTEL** which return to the ***Counting Studies via Television*** is on TV which now airs from Monday to Saturday as **PTV** is now home to educational programming **CONSTEL** like ***Science Made Easy***, ***Chemistry in Action***, ***Physics in Everyday Life***, ***Fun with Math*** and ***English High School*** aimed at upgrading teaching skills of elementary and secondary teachers of Science and English to help address the high dropout rate in grade school. Institutionalized by **Department of Education, Culture and Sports (DECS)**, **CONSTEL Science and English** are being used in teacher training by the **Regional and Divisional Leader Schools of the Department of Education**, culture and sports and in **Teacher Education Institutions of the Commission on Higher Education**. Other educational and

cultural programs on **PTV** will bring back on television: ***Tele-Aralan ng Kakayahan***, hosted by Cecille B. Garucho; ***Hands on Craft for Kids*** and ***Kidsongs***.

In my opinion, **NBC** have a great potential to develop more as an effective alternative to the *telebasura* that plaguing Philippine TV landscape as a whole. However, since **NBC** is state-owned, they are victims of mismanagement since the time of Marcos. As Butch Francisco said once in his article, **NBC** is a sleeping giant.

NBC needed a second channel for cultural and intellectual programming. Most public broadcasters had two networks. And **NBC** must improve its TV drama department, to provide high-quality Filipino dramas to the screen as well as ***i-Connect***, the first show on air will discuss the latest news on social media with Paolo Soler, Xeres X Guia and Abre Abracoso, **NBC *Special Forum***, a public service program will discuss on the issues in TV forum with host Atty. Marc Castrodese, Kathy San Gabriel Scandal, investigative-type program Veronica Balayut-Jimenez's ***The Veronica Chronicles***, the public service talk show like ***GSIS Memebros Hour*** hosted by VP Margie Jorillo and Ms. Bo Sanchez, the noontime children's cartoon programming like ***Cartoon Hour*** from Monday to Saturday at noon, Ka Gerry Geronimio's agricultural and livelihood program ***Ating Alamin*** marked on its 39th year anniversary, a game show like ***Show Up: Ang Bagong Game Show ng Bayan*** every Sunday with host Chx Alcala, Cacai Bautista, Samantha Page, Vanessa Villegas, Doc Harris Acero, Mark Anthony Cruz, Carby Salvador, Ms. Mj and JIREH ang bestfriend ng bayan aims mainly on bringing hope to our less fortunate brothers and sisters thru giving away prizes via different game segments of the show coupled with entertainment by special numbers from specials celebrity guests, cash prizes both for winners and non-winners, gift packages from organizers and sponsors will dominate the whole event of the show with **NBC**, the one and only national network that brings you quality sports viewing entertainment.

NBC is a good viewership during the basketball league of the sports events like ***ASEAN Basketball League*** and ***UAAP***, which home to the basketball tournaments in the university basketball league and the official broadcaster of major international sports competitions like ***Sydney Olympics*** and covering the **2013 Southeast Asian Games**. During these coverages, **NBC** received commendations from various sports organizations.

And **NBC** must strive hard to be an independent, plural and objective public broadcaster, free from government intervention. Oh, and I forgot, **NBC** should promote the right usage of the Filipino language, as most public broadcasters. Add it with provincial public broadcasters, and voila.

This is a serious problem among today's youth and Youth Bytes goes on the offense in helping God's people fight this. Youth Bytes is a DVD resource that is designed to give anyone working with young people a powerful new tool to engage the faith of teens and young adults.
- ***Restoration Road*** - The cross, a symbol of the most horrific death created by mankind, is also a picture of the vertical intersecting with the horizontal. The vertical represents our relationship with God. The horizontal portrays our relationships with others, including the tasks that we desire to achieve. Jesus Christ who lived, died on a cross, and resurrected to provide us with His Spirit, is the embodiment of the vertical and the horizontal: fully God and fully man, restoring man with God and man with man. Each person is created in the image of God with one primary purpose: to live where the vertical intersects with the horizontal. No wonder the postmodern culture's number one value is authenticity: reflecting the design of the Designer from the inside out. Authenticity begins in our hearts, beats through our desires, and breathes through our lives.

The only child of Charley and Rebecca Stanley, Charles came into the world during a time when the entire nation felt the grip of the Great Depression. To make matters worse, just nine months later, his father Charley died at the young age of 29.

Youth Bytes is a DVD resource that is designed to give anyone working with young people a powerful new tool to engage the faith of teens and young adults.
- **Restoration Road** - The cross, a symbol of the most horrific death created by mankind, is also a picture of the vertical intersecting with the horizontal. The vertical represents our relationship with God. The horizontal portrays our relationships with others, including the tasks that we desire to achieve. Jesus Christ who lived, died on a cross, and resurrected to provide us with His Spirit, is the embodiment of the vertical and the horizontal: fully God and fully man, restoring man with God and man with man. Each person is created in the image of God with one primary purpose: to live where the vertical intersects with the horizontal. No wonder the postmodern culture's number one value is authenticity: reflecting the design of the Designer from the inside out. Authenticity begins in our hearts, beats through our desires, and breathes through our lives.

With the help of the club leaders, "Miss Audrey" and "Miss Judy" (series co-creators Audrey and Judy Landers), the "Buggsters" explore a variety of subjects through song, dance, and play. During each episode, with the help of a magical computer, the Buggsters conjure up the loveable characters, "Huggabug", "Miss Oops-a-Daisy" and "Auntie Bumble," who help explore the day's theme through song, dance, and play. "Huggabug" is a soft and fuzzy cowboy bug who cheers up children with his power-packed hugs. "Miss Oops-a-Daisy" is a cute and clumsy flower who instills confidence in the children by letting them know its okay to make mistakes. "Auntie Bumble" is a grandmotherly bee who teaches the children about manners, caring, and friendship.
- ***Dooley and Pals*** - The Dooley and Pals Show is a unique children's show built on the concept of education through entertainment and discovery. With its colorful cast of characters - the lovable alien Dooley, his robot buddy M.A.R.T.I.E. and space creatures, Cosmos and Zoom - the Dooley and Pals series combines music and dancing with life lessons and pro-social skills along with Bible Fun Facts appropriate for ages 2 to 5.
